Live Sound Mixing
An Introduction

Interested in learning the basics of live audio?
Are you a musician trying to mix your band for concerts?
Want to learn what all those knobs and sliders on a board are for?

As part of its community service and education programs, Jubilee Community Arts is offering a workshop which will provide an introduction to audio setup, equipment, and mixing for concerts. The workshop will present the basics of microphone usage, gain settings, monitor and house mixing, house and channel equalization, and use of mixing boards. There is no charge for the workshop, but participants are asked to volunteer 6 hours of time over the next year to aid production of Jubilee activities.

The workshop will be presented by Dr. Lou Gross, Volunteer Sound Engineer for the Laurel Theater. The workshop date is Thursday, November 30, from 6:00-9:00 pm at The Laurel Theater, 16th and Laurel Ave. To register call Jubilee Community Arts at 522-5851 or email info@jubileearts.org.

The mission of Jubilee Community Arts is to promote, preserve and present the traditional performing arts of the southern Appalachian region and to nurture the cultural milieu responsible for the birth and evolution of these and related art forms. Jubilee Community Arts is a 501(c)3 nonprofit corporation.
